

DispenserONE FLEXI is a 10 Liter capacity dispenser of sanitizing chemicals, designed to be installed in small to medium-sized sites such as supermarkets, franchises and public offices.

MODELS:

- DispenserONE® FLEXI 230 Vac

KEY FEATURES and BENEFITS

- Maximum tank capacity of 10 Litres (canister not included) allows more than 10.000 doses of sanitizing gel in average, minimizing the servicing due to tanks refilling/replacement, especially in places with high influx of people. The unit comes with a tank of 10 liters included in the package.
- Touch free dispensing through proximity sensor guarantees maximum hygiene and safety.
- Peristaltic dosing with single shot time adjustment ensures flexibility of the dispensing depending on the type of sanitizer to be dosed.
- Integrated level control gives direct warnings to the owner avoiding lack of disinfectant in the device.
- Robust design with metal enclosure, yet contained footprint of the unit, makes it suitable to every kind of facility.
- The system is powered by power supply.
- The unit is provided with wheels to allow easy transportation and placement; the metal basement is provided with

holes for optional ground fixation.

- Wide frontal flat surface ensures easy bespoke branding with custom logo and colour.
- Key door lock secures chemical canister preventing from thefts or tampering.
