

DispenserONE® MINI is a small capacity dispenser of sanitizing chemicals.. Its minimal footprint, combined with large bespoke branding possibilities, makes it the best choice for installation in small-sized sites such as cafes, offices, restaurants, gyms.

MODELS:

- DispenserONE® MINI 3 L BATTERY

KEY FEATURES and BENEFITS

- Maximum tank capacity of 3 Litres (or 1 Gallon) allows more than 3.000 doses of sanitizing gel in average, minimizing the servicing due to tanks refilling/replacement. The unit comes with a tank of 3 liters included in the package.
 - Touch free dispensing through proximity sensor guarantees maximum hygiene and safety.
 - Peristaltic dosing with single shot quantity adjustment in 3 steps ensures flexibility of the dispensing depending on the type of sanitizer to be dosed and on the desired amount to be dispensed.
 - Sleek yet robust design with metal enclosure makes it suitable for any place of installation.
 - The system features rechargeable batteries to ensure higher sustainability avoiding frequent disposal of exhausted traditional batteries
 - The metal basement is provided with holes for optional ground fixation.
 - The frontal flat surface ensures easy bespoke branding with custom logo and colour.
- Key door lock secures chemical canister preventing from thefts or tampering.
