

# DispenserONE® 17"

# seko

DispenserONE® 17" is a fully-accessorized, high-capacity dispenser of sanitizing chemicals, designed to be installed in large facilities, malls, airports, hospitals and any place with a large daily influx of people. Its high capacity vastly reduces refill frequency, helping to minimize maintenance costs and service interruptions.

## Product Features

- High tank capacity allows more than 25,000 doses of sanitizing gel on average, minimizing refill requirement, especially in places with a high influx of people. The unit comes with a 25-litre tank included in the package.
- Touch-free dispensing via proximity sensor guarantees maximum hygiene and safety.
- Peristaltic dosing with single shot fine adjustment ensures maximum dosage accuracy and repeatability.
- Single dose quantity can be adjusted via smartphone or PC for maximum flexibility according to the different chemical dispensed.
- Integrated level control gives direct and remote warnings to the owner, helping to prevent the device running dry.
- A wide 17" front screen allows operators to display, schedule and upload media such as messages on the correct hygienic procedures as well as unlocking revenue by selling advertising to third parties. Media content can be uploaded remotely or via USB.
- Remote access to the device provides live and historical data on the total number of dispensed doses, the total dispensed chemical, the remaining chemical in the tank and the general status of the unit, enabling scheduled maintenance to avoid frequent emergency calls.
- "Push" alarm messages can be sent by the unit via e-mail to the owner to alert on different issues like chemical level, tube replacement or others, allowing prompt maintenance interventions.
- An attractive and robust design, yet within a minimal footprint, makes DispenserONE® suitable for every site.

## Technical Features

CERTIFICATIONS	CE, EAC
MAXIMUM TANK CAPACITY	25 liters (included)
MINIMUM CANISTER OPENING	32 mm
DISPENSING RATE	Adjustable 0,2 to 2,0 ml
POWER SUPPLY	100÷240 Vac @50/60 Hz
ELECTRICAL CLASS	Class I (ground connected)
ACTIVATION	Touch free via proximity sensor
MAX CONSUMPTION	50 W
OPERATING TEMPERATURE	10-50°C
STORAGE TEMPERATURE	-20÷60°C
CASE MATERIAL	Zinc plated Iron
MAX UNITS PER PALLET	6
WEIGHT	71 Kg
