

DispenserONE® MINI

seko

DispenserONE® Mini is a small-capacity dispenser of sanitizing chemicals. Its minimal footprint, combined with considerable bespoke branding possibilities, make it the best choice for installation in small-sized sites such as cafes, offices, restaurants and gyms.

Product Features

- Maximum tank capacity of 3 litres (or 1 gallon) allows more than 3,000 doses of sanitizing gel on average, minimizing refill requirement while ensuring product is always available. The unit comes with a 3-litre tank included in the package.
- Touch-free dispensing via proximity sensor guarantees maximum hygiene and safety.
- Peristaltic dosing with single shot fine adjustment in three steps ensures maximum dosage accuracy and repeatability.
- Sleek yet robust design with metal enclosure makes DispenserONE® Mini suitable for every site.
- The system is powered by rechargeable batteries for a more sustainable portable solution that avoids frequent disposal of single-use batteries.
- A metal base is provided with holes for optional ground fixing.
- Wide, flat front surface ensures bespoke branding is easily applied with custom logo and colour.
- Key-operated door lock secures chemical canister, protecting against theft or tampering..
